## How you can measure tire value in 1921 —

OFTEN it's surprising the number of different tire views that come out in a chance talk at the curb or in the leisure of a friend's garage.

THE U.S. ROYAL CORD A famous tire—and a famous tread.

desiers alike as the world's internest example of Cord tire building. Always delivering the same repeated economy, the after tire, and season after season.

The stripe around the sidewall is registered as a trade-mark in the U. S. Patent Office.

Almost every day you come across the man human enough to believe he can outguess the cut-price tag on "joblots." "discontinued lines" and "surplus stocks."

His opposite is the hardpan car owner who sticks year in and year out to a standard brand as the only rational economy.

Many will remember the scarcity of U. S. Tires last year.

A hardship at the time, but a benefit now. There are no U.S. Fires to be worked off — no accumulations—no forced selling of any U.S. brand — no shipping of tires from one part of the

country to mother to "find a market."

There are 92 U.S. Factory Branches. Each one gets its share of U.S. Tires. There is a broad, constant, even distribution of U.S. Tires always going on from these Branches to the dealer.

Buy a U.S. Tire anywhere—in a community of 500 people or even less—and you get a fresh, live tire of current production—with all the original service and mileage the factory put into it.

The owner of a medium or light-weight car stands on equal ground with every other car owner,

Any United States Tire is a universal full include a worth—backed up with a leadership policy of equal quality, buying convenience and price for everybody.
